

Social Central – Controls Against Non-Consensual Involvement

Effective Date: 2026-07-17

<https://socialcentral.net/safety/non-consensual/>

Social Central prohibits non-consensual involvement, including non-consensual intimate imagery and profiles created without a person's consent (AUP §4.4; Terms).

1. Prohibited

- Posting, sharing, or threatening to share intimate images / private content without consent ("revenge porn").
- Using another person's photos or identity without authorization; non-consensual profiles.
- AI / synthetic / deepfake media; unauthorized capture or redistribution of platform content.
- Nudity and sexually explicit profile / album / message content.

2. Prevention

- Face-required primary profile photo + face confirmation when setting main picture.
- Anti-impersonation and anti-AI rules; email activation + required profile before full use.
- Screenshot / screen-recording protections where implemented; circumvention banned.
- Single authentic presence; fake / multi accounts to deceive prohibited.

3. Detection

- Report Abuse on profiles and feed content; Block and Not for Me.
- Staff support / moderation queues; reverse image search when investigating.
- Auto-ban if five unique users report the same account within five days.

4. Enforcement

- Content removal; warn / suspend / permanently ban; retain banned-account records as needed.
- Law enforcement referral when appropriate; support@socialcentral.net / Contact page.
